Accomplished statistician, data, and policy analyst with 5+ years of experience in statistical analysis, data management, policy evaluation, and geospatial analysis. Proficient in R, Python, and SQL, with a track record of developing guidelines, building forecasting models, and enhancing customer experience through data-driven insights. Adept at collaborating with diverse stakeholders, and translating complex findings into clear, actionable recommendations.

EXPERIENCE

Research Analyst | TriMet | Portland, OR

08/24 – present time

- Designed advanced R-based models to accurately project ridership for bus and tram stops, integrating key variables such as scheduling, demographic data, and usage trends.
- Built Python and ArcGIS infrastructure to enable real-time geospatial analytics, accelerating decision-making for service improvements.
- Led the agency-wide move from Tableau to R Shiny and Posit Connect, substantially reducing licensing expenses and streamlining reporting workflows.
- Collected and analyzed rider survey responses to assess satisfaction, identify usage patterns, and guide improvements in scheduling, route optimization, and overall service design.
- Developed clear, data-driven reports, memos, and slide decks for supervisors, translating complex analytics into actionable recommendations that informed both short-term decisions and long-term planning.

Statistical Consultant | Oregon State University | Corvallis, OR

09/22 – 06/24

- Devised statistical methodologies for diverse clinical and public health studies, including experimental design, power calculations, and sampling strategies.
- Consulted with academic researchers and stakeholders to align project goals, clarify deliverables, and outline feasible study designs.
- Authored detailed protocols, ensuring regulatory compliance and methodological soundness, while overseeing data validation procedures.

Graduate Teaching Assistant | Oregon State University | Corvallis, OR

09/22 – 06/24

- Guided over 1,000 students through foundational and advanced statistical concepts, focusing on hands-on data analysis with R and SAS.
- Reviewed student projects, offering constructive critiques on data collection approaches, coding practices, and analytical interpretations.
- Incorporated interactive data visualization tools and real-world datasets to reinforce learning, increasing student engagement and comprehension.

Dmitry Solovyev

soldmibor@gmail.com | linkedin.com/in/dmitrysolovyev1995 | xeshbeluk.github.io

Research Analyst | Central Oregon FUSE | Bend, OR

12/21 - 04/22

- Utilized SQL to assemble datasets on permanent supportive housing initiatives, providing robust, data-driven insights to back new project proposals.
- Determined sample sizes and methodology for a multi-county housing project, enabling a reliable comparison of outcomes.
- Produced reports that secured support from local government officials and private investors.
- Worked alongside a qualitative research team, advising on statistical techniques to strengthen interdisciplinary findings.

Data & Policy Analyst | Center for Advanced Governance | Moscow, Russia

05/19 - 12/21

- Deployed a database system to analyze socio-economic and healthcare policy metrics, leading to a significant improvement in data accuracy and accessibility.
- Developed and maintained interactive healthcare dashboards using R Shiny.
- Employed statistical tools to identify inefficiencies within federal agencies, contributing to a substantial cut in operational expenses.
- Introduced KPI-focused Standard Operating Procedures that elevated accountability and performance across public-sector divisions.

Policy Analyst | Center for Strategic Research | Moscow, Russia

09/18 - 04/19

- Created projections for energy-sector developments using macroeconomic indicators and statistical forecasting techniques.
- Conducted in-depth comparative analyses of international trade regulations, informing policy decisions and negotiations.
- Partnered with cross-departmental research teams, assessing the potential economic and social impacts of proposed legislation.

EDUCATION

- **MS in Statistics**, Oregon State University 2022 – 2024
- **Master of Public Policy**, Oregon State University 2021 – 2023
- **Master of International Relations**, Moscow State Institute of International Relations 2016 - 2018
- **Bachelor of Political Science**, Lomonosov Moscow State University 2012 - 2016

SKILLS

Programming & Analytics: R (tidyverse, lme4) | Python (numpy, pandas, sklearn, plotly) | SQL | SAS | STATA
zsh | vim | BigQuery | pyspark | GCP | AWS

GIS & Visualization: ArcGIS | QGIS | Shiny | Tableau | Power BI

Statistical Techniques: Generalized Linear Models | Power Calculations | Experiment Design | Hypothesis Testing
Time Series | Cluster Analysis | Network Analysis | Bayesian Statistics | Survival Analysis

Data & Policy Tools: SQL Automation | KPI/SOP Design | Clinical Trial Protocols (SEND, ADaM, SDTM)
